<https://www.linkedin.com/in/johndoerust/>

<https://github.com/johndoerust>

Paris, Ile-de-France, FR

## SKILLS

Go/Java/TypeScript, Bash/Python,  
Prometheus/Grafana, Jenkins/Travis CI,  
Docker/Kubernetes, AWS/Google Cloud

## SOFT SKILLS

Teamwork, Adaptability, Attention to detail,  
Facilitator

## EDUCATION

**Master** in Computer Engineering | Alta  
Nova University  
Graduated  
Lisbon, Portugal, 2013 - 2015

**Bachelor** in Computer Science | Pedro Alto  
University  
Graduated  
Lisbon, Portugal, 2010 - 2013

## CERTIFICATIONS

Docker Certified Associate (DCA)  
Certified Kubernetes Administrator (CKA)

## LANGUAGES

English (Fluent)  
French (Fluent)  
Portuguese (Native speaker)

## HOBBIES

Cooking , Hiking , Reading , Motor Sports

## EXPERIENCES

DevOps Engineer | French Med Company

Paris, France | Since October 2020

Led the implementation of cloud infrastructure on AWS and Azure platforms, resulting in a 50% reduction in infrastructure costs. Designed and implemented a highly available Kubernetes cluster for container orchestration, improving application resiliency and reducing downtime. Built a custom CI/CD pipeline using GitLab CI/CD and Jenkins, resulting in faster and more reliable application deployments.

DevOps Engineer | Bold Corporation

Paris, France | September 2017 - September 2020

Manage and maintain complex cloud infrastructure consisting of AWS and Azure services. Implemented Kubernetes for container orchestration, resulting in a 30% reduction in deployment time. Set up and maintained monitoring and alerting systems using Prometheus and Grafana.

DevOps Engineer | Defi Solutions

Lisbon, Portugal | May 2015 - August 2017

Built and managed cloud infrastructure on AWS and Google Cloud platforms. Implemented Docker containerization and automated deployment using Jenkins. Configured and maintained Ansible playbooks for infrastructure automation and configuration management. Conducted regular security audits and implemented measures to improve security posture.

Software Engineer | BlackBee Inc.

Aveiro, Portugal | April 2015 - January 2015

Work with development teams to design and develop software applications using Java, Spring, and Hibernate. Automate build, test, and deployment processes using tools such as Jenkins, Ansible, and Docker to improve software delivery speed and quality. Design and maintain cloud-based infrastructure using AWS services such as EC2, S3, and RDS.

## PROJECTS

CloudFormation Templates

Developed a set of reusable CloudFormation templates to automate the deployment of cloud infrastructure resources on AWS.
